

An aerial night view of a city skyline, likely New York City, with numerous skyscrapers illuminated by city lights. The sky is a mix of dark blue and orange from the setting or rising sun. In the top right corner, there is a decorative graphic consisting of a grid of small white dots, with two horizontal bars (one blue and one purple) intersecting it.

Security and Safety for City Environments

More and more people are moving into cities. According to the United Nations, the worldwide urban population has increased 59% in 2020. With more and more people gathering in cities, increasing security is of paramount importance. Therefore, city surveillance for public safety is a continuously growing challenge in modern society.

VIVOTEK city surveillance solutions not only help to deter crimes, accidents, and vandalism. They also improve traffic management efficiency while still capturing forensic evidence. Through a variety of camera offerings, our solutions for city surveillance can maintain constant, detailed coverage. Compatible with most VMS platforms, plus embedded AI Analytics for automated detection, VIVOTEK solutions proactively provide peace of mind for metropolitan areas.

Round-The-Clock Surveillance

VIVOTEK solutions for city surveillance can be depended on day or night, rain or shine. Accompanied with advanced technologies such as Smart IR II, Supreme Night Visibility (SNV), and Wide Dynamic Range (WDR), our cameras can capture crystal clear images in any weather condition. Distorted images due to low light or overexposure are things of the past, with VIVOTEK cameras, great image quality is guaranteed at any time of day. Furthermore, our outdoor city surveillance cameras are IP66 and IK10 certified, ensuring continuous operation in all weather conditions from below freezing to blazing hot, and always protected against vandalism.

Wide Selection for Maximum Coverage

From super wide angle views to zoomed in close-ups, VIVOTEK solutions provides a large variety of cameras to promote safety in all facets of city life. 360° fisheyes and 180° panoramic cameras provide bird's eye views. Robust outdoor fixed domes and bullet cameras are available in many resolutions and housing sizes for real-time monitoring of people and vehicles. Speed Dome cameras with Smart Tracking Advanced VCA can detect events and track persons-of-interest. Eliminate blind spots and cover entire municipalities with the full range of VIVOTEK camera portfolios.

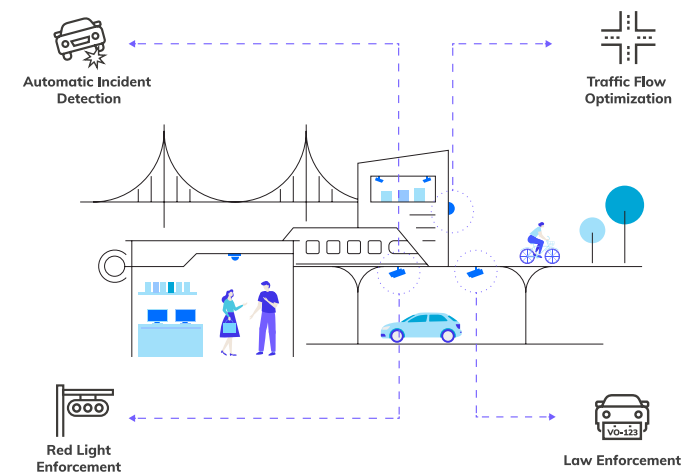

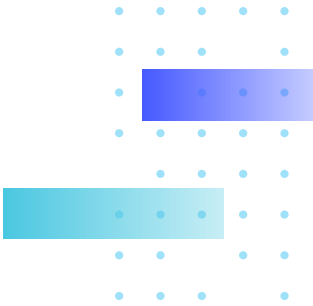

Automated Detection for Law Enforcement

VIVOTEK cameras with the latest AI analytics built-in can proactively detect people, and vehicles, when they trigger event rules. Automatically detect people loitering, entering prohibited areas, left behind objects, and more with Smart VCA enabled cameras. These deep learning AI cameras will tag the footage and provide real-time notifications to security operators.

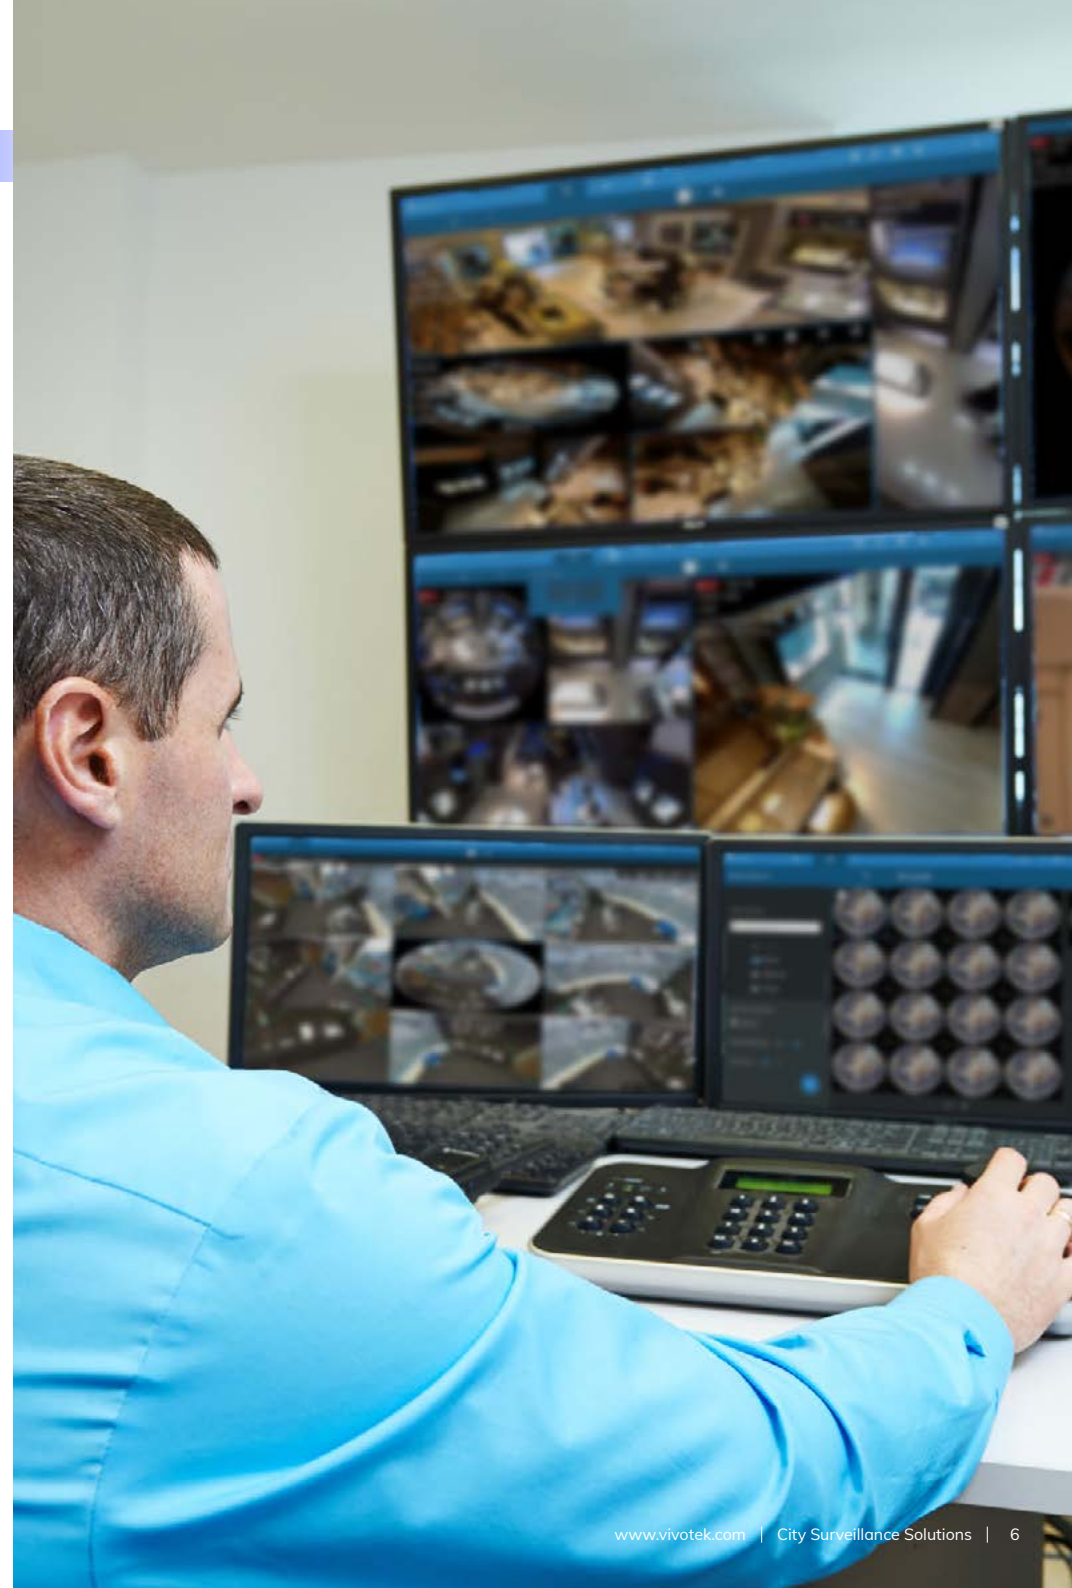

LPR cameras can automatically capture vehicle license plate numbers in the event of traffic violations or parking infractions, helping provide forensic evidence to law enforcement.

Integrated & Flexible Operation

City surveillance operations could be as simple as monitoring real-time video streams from all cameras in a single control room. Our video management software, VSS, integrates multiple playback modes and matrix for video wall, making simultaneously managing video recordings from multiple sources possible. Our city surveillance cameras are also fully compatible with most industry leading VMS partners, such as Milestone and Genetec. Users can relax knowing that VIVOTEK camera solutions are fully integrated with industry leaders in physical security.

Applications

Public Buildings

Parks / Squares

City Streets

Parking

Stadiums

Bus / Train Stations
