* Audio support via Generic RTSP and audio codec is G.711, G.726 or AAC

**Audio support via ONVIF and audio codec is G.711

Video Event

M: Indicates that Camera Video Motion Events are supported on the device.

Ta: Tampering Events are supported

VL : Video Loss Events are supported

VA : Video Analytic Events are supported

Note: NVR supports Modbus TCP/IP IO device, including 16 digital input, 16 digital output
