Release Note for DrayTek Soft Phone

Firmware Version: 1.4.1
Built Date: January 31, 2012
Applied System:
Windows XP SP3, Vista, Windows 7

New Features

- Support Multi-account profile.

Improvement

- Corrected: Can't make call transfer to another extension if they are in a same hunt group.
- Corrected: If there is no display name in SIP account setting, Soft Phone may crash soon.
- Corrected: Soft Phone can't save face icon files during uninstall.
- Corrected: After Soft Phone received a G.729 Codec call, the busy tone would be heard in the next call to Soft Phone.
