

Release Note for Smart VPN Client

Firmware Version: 4.0.0.1

Built Date: April 15, 2010

**Applied Operation System: Windows XP
SP3/Vista/Windows 7**

Smart VPN Client is a VPN configuration utility that supports the VPN schemas, PPTP, L2TP, IPSec and DrayTek SSL Tunnel. It makes VPN configuration easily for users.

New Features

- Support x64 bit Windows 7 OS.
- Add "Redial after connection lost" function to PPTP/L2TP/L2TP over IPSec/SSL VPN. User can configure redial number & redial interval.

Improvement

- Support unicode for character encoding. You can manually select the language you want without changing the OS language code or rebooting the system.
- Client can save the settings to the local config. File now. The settings are no longer saved in the registry. That means the DrayTek VPN Client is portable. You can store the whole client folder in a USB disk, then implement the old profiles on another machine without any trouble.
- Some minor changes on WUI.

Known Issue

- None.
