

Release Note for SmartVPN Client

Firmware Version: 4.3.3.2

Release Date: September 26, 2016

Applied Operation System:

**Windows XP SP3, Vista 32-bit/64-bit, Windows 7
32-bit/64-bit, Windows 8, Windows 10**

The Smart VPN Client is a VPN configuration utility. It makes VPN configuration easy for users. It could support the following VPN schemas, PPTP, L2TP, IPSec and DrayTek SSL Tunnel.

New Features

- None.

Improvement

- Corrected: New version of SmartVPN Client could not be installed, while the old version client was running.
- Improved: Remove the "DES/3DES/AES only" security methods for Windows 7 and above, since they do not support the methods any more.
- Improved: Add "Remember Password" checkbox in dialup window, so that a user can choose not to remember password to increase security.
- Improved: Hide the "Username/Password" by default. The settings will be shown when you enable the "Disable pop-up VPN information window..." checkbox.
- Improved: Support setting WINS address for SSL/PPTP/L2TP/L2TP over IPSec tunnel for Windows 7 and above.
- Improved: Client will automatically ignore the port setup in the "VPN Server IP/Host Name" field, when you try to dialup an IPSec/PPTP/L2TP/L2TP over IPSec tunnel.
- Improved: Support TLS 1.2 / 1.1 for SSL tunnel.
- Improved: Support the DH Group 14 key exchange algorithm.
- Improved: Disable the "SSL 3.0" security method by default.

Known Issue

- None.

Notes

Modifications

- None
