

## Release Note for SmartVPN Client

Firmware Version:	5.0.0
Release Type:	Normal
Applied Operation System	Windows XP SP3, Vista 32-bit/64-bit, Windows 7 32-bit/64-bit, Windows 8, Windows 10, Windows Server 2012 R2

The Smart VPN Client is a VPN configuration utility. It makes VPN configuration easy for users. It could support the following VPN schemas, PPTP, L2TP, IPSec and DrayTek SSL Tunnel

### New Features

- Support brand new web user interface style and layout to simplify and optimize the user's operation. Provide 3 main configuration pages.
  - Connection, for all connections status & dial-up.
  - Profiles, for all VPN profile settings.
  - Settings, for SmartVPN system settings.
- Currently only support English / Traditional Chinese / Simplified Chinese / German / Portuguese as multi-language selections.

### Improvement

- Improved: Remove the old details setting page, and integrate them into one single profile page as advanced settings.
- Improved: Support two new themes - Light & Dark.
- Improved: Replace all the checkbox with new toggle switch.
- Improved: Automatically detect local and remote subnet if they are in same subnet, then prompt to add more subnet settings to access remote server.
- Improved: While adding the VPN profile, check if the profile name already exists.
- Corrected: Unable to establish the SSL VPN if Server Certificate Authentication option was enabled.

### Known Issue

- None.
