

Release Note for SmartVPN Client

Firmware Version:	5.6.4
Release Type:	Normal - Upgrade recommended when convenient
Applied Operation System	Windows Vista 32-bit/64-bit, Windows 7 32-bit/64-bit, Windows 8, Windows 10, Windows 11, Windows Server 2012 R2

The Smart VPN Client is a VPN configuration utility. It makes VPN configuration easy for users. It could support the following VPN schemas, PPTP, L2TP, IPSec, OpenVPN, WireGuard VPN and DrayTek SSL Tunnel.

New Features

- Add a new option of "Disable class based route addition".

Improvement

- Improved: Update translation.
- Improved: Add more description on 2FA screen.
- Improved: The port number can be saved in config; and the entered SSL port can be saved while changing a different VPN protocol type.
- Corrected: An issue with the SSLVPN dialup problem on specific computers.

Known Issue

- SmartVPN Client will possibly pop up an error "Hardware failure in port or attached device." if a user tries to reconnect SSL VPN after a long-time performance test with SSL VPN.

Note

- No longer support Windows XP system.
