

Release Note for SmartVPN Client

Firmware Version:	5.7.1
Release Type:	Normal - Upgrade recommended when convenient
Applied Operation System	Windows Vista 32-bit/64-bit, Windows 7 32-bit/64-bit, Windows 8, Windows 10, Windows 11, Windows Server 2012 R2

The Smart VPN Client is a VPN configuration utility. It makes VPN configuration easy for users. It could support the following VPN schemas, PPTP, L2TP, IPsec, OpenVPN, WireGuard VPN and DrayTek SSL Tunnel.

New Features

- Add the Port Knocking feature.
- Integrate the installation of WireGuard and OpenVPN tools into the SmartVPN Client for streamlined setup.

Improvement

- Improved: Add the default route setting for WireGuard to improve routing configuration.
- Improved: Remove the option of “Disable class-based route addition” for OpenVPN to streamline routing behavior.
- Corrected: An issue where the WireGuard VPN continued attempting handshakes in the background after the server restarted.

Known Issue

- SmartVPN Client will possibly pop up an error "Hardware failure in port or attached device." if a user tries to reconnect SSL VPN after a long-time performance test with SSL VPN.

Note

- No longer support Windows XP system.
