

DynaHawk™ 720/820Z Series

Full HD Supreme frame rate Speed Dome IP Camera is launched now!

Dynacolor Inc. announced DynaHawk™ 720/820 Z series to market, the latest series of Speed Dome camera which innovated from best-sold 720/820 product line. Featuring Full HD, supreme frame rate up to 60 fps, 720/820 Z is able to capture the fast-moving objects and at the same time provide more details. Also, supporting 30x optical and 12x digital zoom to keep the image quality stay well, 720/820 Z is suitable to various surveillance applications, such as transportations, stadium, shopping mall, etc.

720/820 Z series make a breakthrough improvement in DynaColor Speed Dome cameras. By applying powerful DSP and advanced technology, 720/820 Z support up to quad video streams, H.264 High Profile and MJPEG compression format. Furthermore, the superb focus speed of 720/820 Z enables to deliver vivid, well-focused images immediately while doing pan/tilt/zoom control or running preset sequences.

Moreover, 720/820 Z series is equipped with SONY progressive scan CMOS sensor, true day/night IR cut filter and electronic image stabilizer to ensure good image quality. Also, 720/820 Z series have great ONVIF compatibility and integration with major VMS in the market, such as Genetec, Milestone, etc. With IP66 weatherproof housing and various installation accessories, 720/820 Z is fitness to many kinds of surveillance environments. Outstanding performance and user-friendly design, 720/820 Z series would be the best Speed Dome on the market to promote your surveillance level.

Key Features

- SONY Progressive CMOS scan sensor
- Up to 30x Optical Zoom and 12x Digital Zoom
- True Shutter Wide Dynamic Range
- Supreme Frame Rate Support up to 60fps
- Electronic image stabilizer
- 2D/3D Noise Reduction
- Weatherproof (IP66 International)
- ONVIF Integration
