

## Video Surveillance for Retail

### Network DVR With POS Solution

Point of Sales DVR Integration

- Integrate 3<sup>rd</sup> party POS system with VPON Network DVR
- Automatically capture POS transaction data into DVR from serial interface
- Each serial interface port can connect one POS machine
- Record and associate POS transaction data with video
- Superimpose POS transaction data onto corresponding video
- Search video clips based on text (POS transaction data)
- User can specify keywords in the transaction data for Data Event
- Alerting when abnormal transaction data was captured such as VOID or NO SALE
- Central Monitoring multiple remote videos using Secuwatch software

### Models

VP-5804/5808

VP-408/412/416

VP-404/4048

### Features And Functions

- EVideo, audio & data recording
  - EUp to 30 fps for each camera live view
  - ERecord and associate POS transaction data with video
  - ERecord / local-monitor / remote-view / playback simultaneously
  - ESupport Multiple video compression algorithm: H.263, JPEG, MJPEG, MPEG4
  - EMotion detection / Event trigger recording / Schedule recording / \*Pre-alarm recording
- \*Note. Not support while using MPEG4

### Recording data backup

- ESupport CD-RW and DVD+RW device
- ESupport NAS (Network Access Storage) and USB External Storage
- ESupport IDE or SCSI RAID device

### Alarm functions

- ESet video loss, motion detection, sensor trigger, disk failure or specific text captured to alarm.
